

Why We Love Media

Over the years, we have enjoyed many strolls into town to grab a bite to eat or a cup of coffee with friends. We love the atmosphere and energy in town, especially on a beautiful day.

Ridley State Creek is just 10 minutes away and our family spent a great deal of time hiking, visiting the horses and taking in its beautiful landscapes. Rose Tree Park is right down the road which is a festive location at the holidays and an epic spot to sled.

Our family has covered every playground in the area & it's been wonderful to walk right across the street to play. The Tot Lot in town along with the playground at Media Elementary have been our particular favorites.

The ability to take public transportation into Philly for work or leisure was a nice luxury for us to be able to relax on our way into the city instead of fighting rush hour.

State Street throughout the year is always bustling with activity with Dining Under the Stars, Fall & Spring craft fairs, Santa parades and so much more. We have entertained many friends & family with the activities in town.
